Maximum Operating Temp:

400.0 degrees fahrenheit

Basic Ingredient:

Graphite and silicone

Quantity Within Each Unit Package:

0.500 pints

Effective Temperature Range Rating:

+32.0/+400.0 degrees fahrenheit

Special Features:

General composition, molybdenum disulfide graphite, and other self-lubricating solids

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
