Basic Ingredient:

Polyalkalene glycol w/molybdenum disulfide

Service Characteristics:

Corrosion resistive and extreme pressure and oxidation resistant and salt water resistant

Quantity Within Each Unit Package:

1.000 pints

Effective Temperature Range Rating:

-25.0/+800.0 degrees fahrenheit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
