Service Characteristics:

Acid resistant and alcohol resistant and alkali resistant and tar-pitch-asphalt and water resistant

Quantity Within Each Unit Package:

1.250 gallons

Effective Temperature Range Rating:

+60.0/+650.0 degrees fahrenheit

Reference Number Differentiating Characteristics:

As differentiated by the packaging requirement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
