Service Characteristics:

Corrosion resistive and oxidation resistant

Quantity Within Each Unit Package:

5.000 gallons

Viscosity At Rated Temp:

30.80 100 degrees fahrenheit and 33.00 100 degrees fahrenheit

Maximum Pour Point:

-20.0 degrees fahrenheit

Color:

Any acceptable

Reference Number Differentiating Characteristics:

As differentiated by the qty.Within each unit pkg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
