**Service Characteristics:**

Corrosion resistive and oxidation resistant

**Quantity Within Each Unit Package:**

5.000 gallons

**Viscosity At Rated Temp:**

30.80 100 degrees fahrenheit and 33.00 100 degrees fahrenheit

**Maximum Pour Point:**

-20.0 degrees fahrenheit

**Color:**

Any acceptable

**Reference Number Differentiating Characteristics:**

As differentiated by the qty. Within each unit pkg

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A41600
