Service Characteristics:

Corrosion resistive and oxidation resistant

Quantity Within Each Unit Package:

5.000 gallons

Viscosity At Rated Temp:

42.00 100 degrees fahrenheit and 52.00 100 degrees fahrenheit

Maximum Pour Point:

10.0 degrees fahrenheit

Color:

Colorless

Specification Or Standard:

2 grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
