Maximum Operating Temp:

370.0 degrees fahrenheit

Physical Form:

Any acceptable

Basic Ingredient:

Mineral oil-lithium soap

Service Characteristics:

Corrosion resistive and water resistant

Quantity Within Each Unit Package:

14.000 ounces

Special Features:

For use on wsr-57 radar magnetrons

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
