**Service Characteristics:**

Salt water resistant and water resistant

**Special Features:**

Extreme temperature, non-melt; contains extreme pressure additives, extreme pressure, 65 timken load; corrosion inhibitors; contains two synthetic molybdenums; ball and roller bearing; multi-purpose grease; ordnance grease; withstands temperatures up to 550 degrees fahrenheit; 14 ounce crushproof tube; used for agriculture, industry, marine and automotive fleet application

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A41600
