Service Characteristics:

Salt water resistant and water resistant

Special Features:

Extreme temperature, non-melt; contains extreme pressure additives, extreme pressure, 65 timken load; corrosion inhibitors; contains two synthetic molybdenums; ball and roller bearing; multi-purpose grease; ordnance grease; withstands temperatures up to 550 degrees fahrenheit; 14 ounce crushproof tube; used for agriculture, industry, marine and automotive fleet application

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
