Maximum Operating Temp:

252.0 degrees celsius

Physical Form:

Liquid

Grease Type:

Electrically conductive

Minimum Dropping Point:

57.0 degrees celsius

Effective Tempurature Range Rating:

-57.0/+252.0 degrees celsius

Special Features:

Syringe grease dispenser; blister box pkg; dispenses conductive silver grease to lubricate metal, rubber and plastic and to repair, protect,

bond lubricate and restore electrical conductivity to circuit boards and components

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
