**Minimum Dropping Point:**

420.0 degrees fahrenheit

**Effective Temperature Range Rating:**

-73.0/+121.0 degrees celsius

**Special Features:**

Viscous type 3.4 at 100 degrees c; 60 kg mean hz load; evaporation 250 degrees f; synthetic grease composed of lithium complex thickened synthetic base oil w/corrosion and oxidation inhibitors; meets boeing specification bms3-33 calling for one grease to cover nearly all boeing aircraft applications, especially roller bearings, actuator screws and other airframe equipment

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A41600
