Minimum Dropping Point:

420.0 degrees fahrenheit

Effective Temperature Range Rating:

-73.0/+121.0 degrees celsius

Special Features:

Viscous type 3.4 at 100 degrees c; 60 kg mean hz load; evaporation 250 degrees f; synthetic grease composed of lithium complex thickened synthetic base oil w/corrosion and oxidation inhibitors; meets boeing specification bms3-33 calling for one grease to cover nearly all boeing aircraft applications, especially roller bearings, actuator screws and other airframe equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
