Basic Ingredient:

Gelling agent

Effective Temperature Range Rating:

-34.0/+204.0 degrees fahrenheit

Nato Code Number:

G399

Supplementary Features:

Hydrocarbon fuel and liquid oxidizer resistant; used as lubricant in aircraft, aerospace vehicles and supporting equipment

Specification Data:

81348-mil-prf-27617 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600

Mil-std (military Standard):

Mil-prf-27617 spec.
