Aircraft And Instrument Grease - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/9150-01-529-7931

Basic Ingredient:
Synthetic oil
Melting Point Tempurature Rating:
250.0 degrees celsius
Effective Tempurature Range Rating:
-59.0/+260.0 degrees celsius
Vapor Pressure Maximum Tempurature Rating:
20.0 degrees celsius
Special Features:
A chemical inert perfluoropolyether (pfpe) grease used in military applications including rotary and push button switches. Contains a pfpe
soluble corrosion inhibitor for protection for lubricated parts while in use or long term storage. It is especially suitable for use in application
including electrical contacts, valves, threads, screws, bearings, and in systems employing elastomeric and plastic seals, gaskets, and
o-ring. It is very inert, newly exposed rubbing surfaces of aluminum and magnesium may react with the grease under certain extreme
conditions.
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
