Physical Form:

Tube

Basic Ingredient:

Petroleum oil

Quantity Within Each Unit Package:

8.000 ounces, fluid

Grease Type:

Open gear compound

Minimum Flash Point And Test Method:

224.0 degrees celsius cleveland open cup

Product Name:

Quicksilver 2-4-c marine lubricant with polytetrafluoroethylene

Color:

Amber

Hazardous Substances:

Petroleum oil

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A41600
