Maximum Operating Temp:

260.0 degrees celsius

Physical Form:

Paste

Effective Temperature Range Rating:

-59.0/+260.0 degrees celsius

Vapor Pressure Maximum Temperature Rating:

20.0 degrees celsius

Special Features:

Perfluoropolyether grease; non-reactivity w/ harsh chemicals such as acids, oxidizers, fuels, and solvents; used on electrical contacts, valves, threads, screws, bearings, plastic seals, gaskets, and o-rings; very inert; packaged in 2 oz, 4 oz, 8 oz, 1 lb, 2 lb, 1kg, and 5 gal; free of ozone depletion compounds

Color:

White

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
