Standard Calibrating Oil - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/9150-01-547-4763

Minimum Flash Point:

210.0 degrees celsius

Err Default:

Err default

Special Features:

The oil values are determined at 20 degrees c (68 degrees f) and 760 mm hg (1atm): appearance-clear, amber; physical state-liquid;

odor-hydrocarbon; bulk density-7.08 lbs/gal

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

Т089-с
