Effective Temperature Range Rating:

-40.0/+175.0 degrees celsius

Vapor Pressure Maximum Temperature Rating:

20.0 degrees celsius

Special Features:

A high performance lithium-complex grease; color is green; odor, mild, negligible; suitable for lubricating cams, ways and other sliding elements; other applications include vehicles and grease components in paper mills, where both water and high temperatures are encountered; boxes supplied w/10 14 ounce tubes of grease

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
