Maximum Operating Temp:

400.0 degrees fahrenheit

Physical Form:

Liquid

Basic Ingredient:

Dimethyl silicone

Service Characteristics:

Nontoxic

Effective Temperature Range Rating:

-40.0/+400.0 degrees fahrenheit

Special Features:

Non-dropping; base oil polydimethyl siloxane fluid; indefinite shelf life excellent oxidation stability; penetratration nlgi grade n3; inorganic thickener; specific gravi type 1.03; non-toxic; nonflammable and flash point above 400f; stick bulk poly-pac grade; unsuitable for liquid hydrocarbons

Color:

White

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A41600
