End Application:

6665-01-452-9644

Product Name:

Ball screws and nsk linear guides with e-dfo for vacuum environments

Special Features:

Grease name-multemp ps no. 2, thickener-lithium soap, manuf temp range in degrees celsius -50 to 110, appearance-peach white, oil separation 3.6 percent in 24 hours at 100 degrees celsius, oxidation stabili type 0.005 mpa in 100 hours at 99 degrees celsius, corrosion resistance-pass, starting torque- 0.152 newton meter at -50 degrees celsius, running torque-0.040 newton meter at -50 degrees celsius, 80 gm tubes, base oil-diester plus mineral oil

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
