Physical Form:

Liquid

Basic Ingredient:

Petroleum base

Quantity Within Each Unit Package:

14.000 ounces, fluid

Product Name:

Ship to shore extra heavy duty nonmelting grease

Special Features:

Performs at a wide range of temps up to 550 degrees f; resists most acids, salt spray, steam, water, dust, dirt oxidation and weather; high shock and impact resistance; excellent load carrying capacity 65 timken load; special rust and corrosion inhibitors; exceptional adhesive and cohesive properties; flash point >400 degrees f; density at 68 degrees f 63.67 lbs/gal

Color:

Red

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
