**End Application:**

F414 engine

**Product Name:**

Pyrolube liquid

**Special Features:**

High temp lubricant composition 60-90 percent aliphatic hydrocarbons, .5-5 percent graphite, 1-10 percent aluminum stearate; flash point 117 degrees f; boiling point 365 degrees f; specific gravity .77; water solubility insoluble; appearance and odor gray liquid with a solvent odor; lubricates up to 180 def f

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T096-b
