Colloidal Graphite - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/9150-01-581-9052

End Application:
F414 engine
Product Name:
Pyrolube liquid
Special Features:
High temp lubricant composition 60-90 percent aliphatic hydrocarbons, .5-5 percent graphite, 1-10 percent aluminum stearate; flash point
117 degrees f; boiling point 365 degrees f; specific gravity .77; water solubility insoluble; appearance and odor gray liquid with a solvent
odor; lubricates up to 180 def f
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T096-b
