End Application:

F414 engine

Product Name:

Pyrolube liquid

Special Features:

High temp lubricant composition 60-90 percent aliphatic hydrocarbons, .5-5 percent graphite, 1-10 percent aluminum stearate; flash point 117 degrees f; boiling point 365 degrees f; specific gravity .77; water solubility insoluble; appearance and odor gray liquid with a solvent odor; lubricates up to 180 def f

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T096-b
