End Application:

LIGH-TW-EIG-HTWA

Fatty Material Type:

Synthetic oil

Viscosity At Rated Temp:

91.00 210 degrees fahrenheit

Special Features:

30-wt epdm compatible oil, flash point: 500 degrees f., pour point degrees f: minus 30, viscosity index: 190, vapor pressure: n/a, chemical name: polyether, chemical family: glycol

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
