End Application: Navy code rcr000003 Fatty Material Type: Mineral oil and synthetic oil Basic Ingredient: Synthetic base Minimum Viscosity Index: 138.0 Lubricant Type:

Universal

Service Characteristics:

Fuel-oil resistive and petroleum solvents resistive and wear resistant

Quantity Within Each Unit Package:

55.000 gallons

Viscosity At Rated Temp:

77.0 40 degrees celsius and 97.0 40 degrees celsius

Maximum Pour Point:

48.0 degrees celsius

Minimum Flash Point And Test Method:

280.0 degrees celsius cleveland open cup

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
