End Application:

Crosshead diesel engine

Fatty Material Type:

Any acceptable

Basic Ingredient:

Any acceptable

Lubricant Type:

Any acceptable

Service Characteristics:

Any acceptable

Quantity Within Each Unit Package:

55.0 gallons

Storage Type:

Temperature controlled warehouse

Viscosity At Rated Temp:

105.0 40 degrees celsius

Minimum Flash Point And Test Method:

220.0 degrees celsius pensky-martens closed cup

Product Name:

Lubricating oil

Special Features:

Liquid, light color w/slight odor; insoluble in water

Supplementary Features:

Densi type 890kg/m (0.89g/cm3) @15c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
