**Basic Ingredient:**

Synthetic base

**Service Characteristics:**

Corrosion resistive and oxidation resistant and high temperature and low temperature

**Quantity Within Each Unit Package:**

5.0 gallons

**Viscosity At Rated Temp:**

38.9 40 degrees celsius and 7.3 100 degrees celsius

**Maximum Pour Point:**

-48.0 degrees celsius

**Minimum Flash Point And Test Method:**

177.0 degrees celsius cleveland open cup

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A41600
