Basic Ingredient:

Synthetic base

Service Characteristics:

Corrosion resistive and oxidation resistant and high temperature and low temperature

Quantity Within Each Unit Package:

5.0 gallons

Viscosity At Rated Temp:

38.9 40 degrees celsius and 7.3 100 degrees celsius

Maximum Pour Point:

-48.0 degrees celsius

Minimum Flash Point And Test Method:

177.0 degrees celsius cleveland open cup

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
