Maximum Operating Temp:

500.0 degrees fahrenheit

Basic Ingredient:

Silicone

Quantity Within Each Unit Package:

3.0 ounces, fluid

Grease Type:

Electrically conductive

Effective Temperature Range Rating:

-40.0 to 500.0 degrees fahrenheit

Product Name:

Super lube, silicone heat sink compound

Special Features:

Super lube, silicone heat sink compound is blended with thermally conductive, fine metal oxide powders. Will not harden, dry out, or melt. Aids in the efficient transfer of heat away from electronics and electrical components. Adheres to metal surfaces.

Color:

White

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A41600
