End Application:

2420-01-532-3399

Service Characteristics:

Antifoam and antiwear

Quantity Within Each Unit Package:

2.50 gallons

Minimum Flash Point And Test Method:

400.00 degrees fahrenheit cleveland open cup

Product Name:

Tutela hydrodex 3

Special Features:

Boiling point: >450.00 deg. F.; pour point: -42.00 deg. F.; vapor density: approximately 12.00; odor: petroleum like odor; specific gravity: 0.88; solubility: negligible in water; hazardous polymerization will not occur; may react with strong oxidizing agents;

Color:

Red

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
