End Application:

P-8a aircraft

Product Name:

Landing gear shock strut mineral hydraulic fluid

Special Features:

Mineral oil base; appearance: yellow, clear and bright; flash point: 110deg c; density at 15 degrees c: 0.87 kg/l; viscosity at 37.8 degrees c: 14.5 mm squared/s; pour point: greater than 68 degrees c; eye irritation; use for aircraft landing gear and shocks, ext. Pressure antiwear perf; box of (12) one-quart cans

General Description:

Box contains (12) one-quart cans

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
