Product Name:

Ice release

Special Features:

Package size: aerosol 12/cs; vapor density: din=1; specific gravity: 0.953-0.977; vapor pressure: 80 psig @ 77 degrees f.; evaporation rate: butyl acetate=1: 0.1; appearance and odor: clear, slight ethereal odor, translucent grease; boiling point or range: -2.6 to 75 degrees f. D-5920ns is effective in temperatures from -70 to 400 degrees f. And is completely removable with suggested solvent

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
