Effective Temperature Range Rating:

-73.0 to 121.0 degrees celsius

Product Name:

Synthetic multi-purpose aircraft grease

Special Features:

Light tan synthetic ester based grease with lithium stearate thickener. Additives provide oxidation and corrosion resistance and rust protection in extreme pressure anti-wear properties. It is identified as nato code: g-354.

Specification Data:

II-prf-23827c (2) type 1 manufacturers standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
