End Application:

4210-01-622-0440

Physical Form:

Solid

Quantity Within Each Unit Package:

35.00 gallons

Minimum Flash Point And Test Method:

182.00 degrees celsius cleveland open cup

Product Name:

Lubriplate no.105

Special Features:

Viscosity: kinematic 0.58 cm²/s; insoluble in water; color: off white; calcium based; texture: smooth; odor: mineral oil; boiling point: >288.00 deg. C.; evaporation rate: <0.01; explosive limits: lel: 0.90%, uel: 7.00%; relative density: 0.89 to 0.93; avoid heat, sparks, and flames; incompatible with oxidizing materials: chlorine;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A41600
