Fabrication Method:

Chemical

Width:

21.000 inches

Length:

25.000 feet

Usage Form:

Roll

Surface Condition:

Machine

Coated Side Quantity:

2

Pulp Material:

Fiber, wood

Basis Weight:

50.0 pounds per 500 sheets 17.0 x 22.0 inches

Roll Outside Diameter:

37.000 inches

Criticality Code Justification:

Feat

Special Features:

Opacified, wound on 3.000 in. Diameter nonreturnable slotted fibre core w/keyways onboth ends

Color:

White

Specification Or Standard:

li type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A09200
