Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

Not rated

Width:

36.000 inches

Thickness:

0.030 inches

Length:

36.000 inches

Surface Condition:

Smooth

Strengthening Feature Material:

Nylon

Environmental Protection:

Weather resistant and craze and oil resistant

Strengthening Feature:

Backing

External Strengthening Feature Location:

Both sides

Color:

Black both sides

Material:

Rubber, synthetic, ams 3273

Material:

Rubber chloroprene class cr and plastic polyamide

Material Specification:

Ams 3273 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
