Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

12 pounds per square inch

Width:

54.000 inches

Thickness:

2.000 inches

Length:

76.000 inches

Surface Condition:

Smooth both sides

Environmental Protection:

Chemical resistant and fire resistant and fungus resistant and oil resistant and solvent resistant

Special Features:

Rubber, polyether urethane foam

Material:

Rubber, polyether urethane foam

Reference Number Differentiating Characteristics:

As differentiated by length, width and thickness

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
