Rubber Strip - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/9320-01-048-2937

Rectangular Fabrication Method: Cellular, unexploded Tempurature Rating: -24.0 degrees fabrenheit Length: 96.000 inches Surface Condition: Smooth both sides Cross-sectional Height: 0.800 inches Cross-sectional Height: 0.800 inches Cross-sectional Protection: Fire resistant and oil resistant Special Features: Ittem must comply with requirements of defense supply center columbus production standard no. Lo9016 Material: Rubber, cellular, mil-r6130, type 2, grade a, condition medium Material: Rubber collular, mil-r6130, type 2, grade a, condition medium Material: Rubber collular, mil-r6130, type 2, grade a, condition medium military specification single material response Reference Number Differentiating Characteristics: Reference number differentiating material will be in accordance with naval inventory control point activity hx quality control. Manufacturing and testing specifications available at the dia icp Shelf Life: Na Unit Of Measure:	Cross Sectional Shape:
Fabrication Method: Cellular, unexploded Tompurture Rating: -24.0 degrees fahrenheit Length: 96.000 inches Surface Condition: Smooth both sides Cross-sectional Height: 0.800 inches Cross-sectional Height: 0.800 inches Cross-sectional Width: 0.375 inches Environmental Protection: Fire resistant and oil resistant Special Features: Item must comply with requirements of defense supply center columbus production standard no. Lo9016 Material: Rubber, cellular, mil-r-6130, type 2, grade a, condition medium Material: Rubber chloroprene class or Material Specification: Waterial Specification: Reference Number Differentiating characteristics: Reference number differentiating characteristics: Reference number differentiating material will be in accordance with naval inventory control point activity hx quality control. Manufacturing and testing specifications available at the dia icp Sheft Life: N/a Unit Of Measure: Demilitarization: No Filig: A28800 Mil-setd (military Standard):	
Tempurature Rating: -24.0 degrees fahrenheit Length: 98.000 inches Surface Condition: Smooth both sides Cross-sectional Height: 0.800 inches Cross-sectional Width: 0.800 inches Cross-sectional Width: 0.800 inches Environmental Protection: Fire resistant and oil resistant Special Features: Item must comply with requirements of defense supply center columbus production standard no. Lo9016 Material: Rubber, cellular, mil-r-6130, type 2, grade a, condition medium Material: Rubber phiroprene class cr Material Specification: White-6130, type 2, grade a, condition medium military specification single material response Reference Number Differentiating Characteristics: Reference number differentiating Characteristics: Reference number differentiating material will be in accordance with naval inventory control point activity hx quality control. Manufacturing and testing specifications available at the dla icp Shelf Life: N/a Unit Of Measure: Demilitarization: No Fig: A26800 Mil-std (military Standard):	Fabrication Method:
24.0 degrees fahrenheit Length: 96.000 inches Surface Condition: Smooth both sides Cross-sectional Height: 0.800 inches Cross-sectional Width: 0.375 inches Environmental Protection: Fire resistant and oil resistant Special Features: Item must comply with requirements of defense supply center columbus production standard no. Lo9016 Material: Rubber, cellular, mil-r-6130, type 2, grade a, condition medium Material: Rubber chloroprene class or Material Specification: Mil-r-6130, type 2, grade a, condition medium military specification single material response Reference Number Differentiating Characteristics: Reference number differentiating material will be in accordance with naval inventory control point activity hx quality control. Manufacturing and testing specifications available at the dia icp Sheft Life: N/a Unit Of Measure: Demilitarization: No Fig: A26800 Mil-std (military Standard):	Cellular, unexploded
Length: 96.000 inches Surface Condition: Smooth both sides Cross-sectional Height: 0.300 inches Cross-sectional Width: 0.375 inches Environmental Protection: Fire resistant and oil resistant Special Features: Item must comply with requirements of defense supply center columbus production standard no. Lo9016 Material: Rubber, cellular, mil-r-6130, type 2, grade a, condition medium Material: Rubber chloroprene class or Material Specification: Mil-r-6130, type 2, grade a, condition medium military specification single material response Reference Number Differentiating Characteristics: Reference number differentiating material will be in accordance with naval inventory control point activity hx quality control. Manufacturing and testing specifications available at the dla icp Shelf Life: N/a Unit Of Measure: Demilitarization: No Fitig: A26800 Mil-std (military Standard):	Tempurature Rating:
Surface Condition: Smooth both sides Cross-sectional Height: 0.800 inches Cross-sectional Width: 0.375 inches Environmental Protection: Fire resistant and oil resistant Special Features: Item must comply with requirements of defense supply center columbus production standard no. Lo9016 Material: Rubber, cellular, mil-r-6130, type 2, grade a, condition medium Material: Rubber chloroprene class or Material Specification: Mill-r-6130, type 2, grade a, condition medium military specification single material response Reference Number Differentiating material will be in accordance with naval inventory control point activity hx quality control. Manufacturing and testing specifications available at the dia icp Shelf Life: N/a Unit Of Measure: Demilitarization: No Fitig: A26800 Mill-rest (millitary Standard):	-24.0 degrees fahrenheit
Surface Condition: Smooth both sides Cross-sectional Height: 0.800 inches Cross-sectional Width: 0.375 inches Environmental Protection: Fire resistant and oil resistant Special Features: Item must comply with requirements of defense supply center columbus production standard no.
