Cross Sectional Shape:

Rectangular

Fabrication Method:

Extruded

Length:

6000.000 inches

Cross-sectional Height:

Between 0.710 inches and 0.790 inches

Cross-sectional Width:

Between 0.172 inches and 0.202 inches

Color:

Black or charcoal gray

Material:

Rubber, ams 3195

Material:

Rubber silicone class q

Material Specification:

Ams 3195 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
