Cross Sectional Shape:

Rectangular

Fabrication Method:

Cellular, unexploded

Length:

2.000 inches

Surface Condition:

Smooth both sides

Cross-sectional Height:

1.000 inches

Cross-sectional Width:

0.500 inches

Environmental Protection:

Craze and low temperature and corrosion

Material:

Rubber, bms1-15, class medium, the boeing co

Material:

Rubber, bms1-15, class medium, the boeing co

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
