Cross Sectional Shape:

Rectangular

Fabrication Method:

Cellular, unexploded

Min. Tensile Strength (psi):

40 pounds per square inch

Temperature Rating:

-65.0 degrees fahrenheit and 480.0 degrees fahrenheit

Length:

10.250 inches

Cross-sectional Height:

0.750 inches

Cross-sectional Width:

0.125 inches

Color:

Black

Material:

Sponge rubber

Material:

Sponge

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
