Cross Sectional Shape:

Square w/ center aperture

Length:

Between 0.670 inches and 0.730 inches

Surface Condition:

Smooth both sides

Cross Section Inside Diameter:

Between 0.280 inches and 0.340 inches

Cross-sectional Height:

Between 0.470 inches and 0.530 inches

Cross-sectional Width:

0.093 inches

Special Features:

Self adhering

Material:

Rubber, silicone, med soft

Material:

Rubber, silicone, med soft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
