Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

Not rated

Width:

Between 35.500 inches and 36.500 inches

Thickness:

0.250 inches

Length:

Between 11.750 inches and 12.250 inches

Surface Condition:

Smooth

Environmental Protection:

Low temperature and high temperature

Special Features:

Smooth finish

Material:

Rubber, silicone, ams 3196

Material:

Rubber silicone class q

Material Specification:

Ams 3196 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
