Min. Tensile Strength (psi):

50 pounds per square inch

Width:

24.000 inches

Thickness:

0.375 inches

Length:

24.000 inches

Special Features:

Remains flexible and resilient over temp range minus 75 degrees to 500 deg

Material:

Rubber, ams 3195

Material:

Rubber silicone class q

Special Test Features:

Especially designed for cushioning, vibration damping, linings, etc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
