Cross Sectional Shape:

Rectangular

Fabrication Method:

Laminated

Surface Condition:

Smooth both sides

Cross-sectional Height:

Between 0.470 inches and 0.530 inches

Cross-sectional Width:

Between 0.155 inches and 0.210 inches

Special Features:

Pressure sensitive adhesive one side and vinyl film coating on opposite side, 24 yards per roll

Color:

Green both sides

Material:

Plastic, polyvinyl chloride and rubber, buna-n

Material:

Plastic polyvinyl chloride and rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
