Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

4000 pounds per square inch and 2600 pounds per square inch

Width:

60.000 inches

Thickness:

0.031 inches

Length:

63.000 inches

Surface Condition:

Any acceptable both sides

Material:

Rubber, ams 7270

Material:

Rubber butadiene-acrylonitrile class nbr

Material Specification:

Ams 7270 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
