Cross Sectional Shape:

Circular

Nonmetallic Hardness Rating:

60.0 shore durometer a

Min. Tensile Strength (psi):

1500 pounds per square inch

Tempurature Rating:

-35.0 degrees celsius

Length:

60.000 inches

Surface Condition:

Smooth outside periphery

Cross Section Outside Diameter:

0.139 inches

End Application:

B-2 bomber

Material:

Rubber, chloroprene

Material:

Rubber chloroprene class cr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
