Cross Sectional Shape:

Rectangular

Length:

2350.0 millimeters

Surface Condition:

Smooth both sides

Cross-sectional Height:

20.0 millimeters

Cross-sectional Width:

10.0 millimeters

End Application:

Strategic sealift conversion ships class

Material:

Rubber

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
