Cross Sectional Shape:

Rectangular

Length:

18.000 inches

Surface Condition:

Smooth both sides

Cross-sectional Height:

1.000 inches

Cross-sectional Width:

0.063 inches

End Application:

Window assembly, outer paratroop door; c-130

Material:

Rubber, synthetic, ams 3207

Material:

Rubber chloroprene class cr

Material Specification:

Ams 3207 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
